K. Unclaimed assets

- An unclaimed asset is any Share/Unit investment on which there have been no transactions for ten years, or in the case of a deceased estate, more than three years have passed since we have received the notice of death. PSG will continue reinvesting all income distributions and withdrawal payments until the Share/Unit is sold, regardless of the time frame.
- PSG will follow a process of tracing investors or beneficiaries on any unclaimed assets. Any reasonable administrative costs incurred to trace the investor may be recovered from the value of the portfolio, thereby reducing the value of your investment. Tracing will cease where the value of the Share/Unit investment is less than \$250 and the costs of tracing exceeds the benefit of tracing.
- To prevent your investment becoming an unclaimed asset, it is your responsibility to inform us of any change in your personal information.
- I/We consent to PSG using third parties, including sharing my personal information, to facilitate the tracing process where required.

L. Effective Annual Cost

The Effective Annual Cost (EAC) is a measure which has been introduced to allow you to compare the charges you incur and their impact on investment returns when you invest in different Financial Products. It is expressed as an annualised percentage.

The EAC is made up of four components, which are added together, as shown in the results of the EAC Calculator available on our website. The effect of some of the charges may vary, depending on your investment period. The EAC calculation assumes that an investor terminates his or her investment in the Financial Product at the end of the relevant periods shown in the table. We recommend that you perform the EAC calculation before investing. To access the Effective Annual Cost Calculator in respect of the foreign currency denominated funds, please follow the link at [EAC Calculator](#).

8. Financial institution (FI)

The term 'financial institution' means a custodial institution, a depository institution, an investment entity or a specified insurance company.

9. Investment entity

The term 'investment entity' includes two types of entities:

- (i) An entity that primarily conducts itself as a business, performing one or more of the following activities or operations for or on behalf of a customer:
- Trading in money market instruments such as cheques, bills, certificates of deposit and derivatives, foreign exchange, exchange, interest rate and index instruments, transferable securities or commodity futures.

10. Participating jurisdiction

A 'participating jurisdiction' means a jurisdiction with which an intergovernmental or competent authority agreement is in place pursuant to which it will provide the information required on the automatic exchange of financial account information as set out in the CRS.

11. Managed by

An entity is 'managed by' another entity if the managing entity performs, either directly or through another service provider on behalf of the managed entity, any of the activities or operations described in (i) of the definition of 'investment entity'.

An entity manages another entity only if it has discretionary authority to manage the other entity's assets (either in whole or part).

Where an entity is managed by a mix of financial institutions, non-financial entities or individuals, the entity is considered to be managed by the financial institution, being the entity that is a depository institution, a custodial institution, a specified insurance company or an entity described in (i) of the definition of 'investment entity', as the case may be.

16. Global Intermediary Identification Number (GIIN)

The Global Intermediary Identification Number is issued by the US Internal Revenue Service (IRS) via the IRS registration portal.

All participating foreign financial institutions need to register with the IRS to obtain a GIIN.

It applies to financial institutions that have adopted FATCA either through an intergovernmental agreement or as a choice, being a Model 2 foreign financial institution.

Certain deemed-compliant or non-reporting financial institutions must also obtain a GIIN.

The GIIN is a unique reference number that has a specific format and is issued to identify each financial institution. Each Section has a particular meaning, for example, it tells you whether the financial institution is part of a bigger group or whether the financial institution is a sponsoring entity. It also identifies the financial institution jurisdiction of residence in which it maintains a branch that is not treated as a 'limited' branch.

17. Non-participating foreign financial institution (NPFFI)

'Non-participating foreign financial institution' means a financial institution that has not agreed to comply with the due diligence requirements of FATCA and, as a result, has not registered on the US Internal Revenue Service portal. 19. Control

'Control' over an entity is generally exercised by the natural person(s) who ultimately has/have a controlling ownership interest in the entity.

Where no natural person(s) exercise(s) control through ownership interests, the controlling person(s) of the entity will be the natural person(s) who exercise(s) control over the entity through other means.

Where no natural person(s) is/are identified as exercising control of the entity through ownership interests, the reportable person will be deemed to be the natural person holding the position of senior managing official.

20. IRS W-9

This form is to be used:

- only if the person is a US person (including a resident alien).
- to request a person's taxpayer identification number (TIN) (the form acts as a certification).
- by a person who is required to file an information return with the US Internal Revenue Service to report, for example, income paid to such person, real estate transactions, mortgage interest paid, acquisition or abandonment of secured property or cancellation of debt.

21. Taxpayer Identification Number (TIN) (including functional equivalent)

A 'taxpayer identification number' is a unique combination of letters or numbers assigned by a jurisdiction to an individual or entity to identify the individual or entity for the purposes of administering the tax laws of such jurisdiction.

In some jurisdictions taxpayer identification numbers are not issued. In such cases, instead of the taxpayer identification number, a functional equivalent can be issued, such as a high integrity number with an equivalent level of identification.

22. Active non-financial entity (NFE)

Any non-financial entity can be an 'active non-financial entity', provided that it meets any of the criteria listed below.

In summary, those criteria refer to:

- The stock of the non-financial entity is regularly traded on an established securities market or the non-financial entity is a related entity²⁴ of an entity of which the stock is regularly traded on an established securities market.
- The non-financial entity is a governmental entity, an international organisation, a central bank or an entity that is wholly owned by one or more of the foregoing.
- Substantially all of the activities of the non-financial entity consist of holding (in whole or in part) the outstanding stock of, or providing financing and services to, one or more subsidiaries that engage in trades or businesses other than the business of a financial institution, except that an entity does not qualify for this status if the entity functions as (or holds itself out to be) an investment fund, such as a private equity fund, venture capital fund, leveraged buyout fund or any investment vehicle whose purpose is to acquire or fund companies and then hold interests in those companies as capital assets for investment purposes.
- The non-financial entity is not yet operating a business and has no prior operating history, but is investing capital into assets with the intent to operate a business other than that of a financial institution, provided that the non-financial entity does not qualify for this exception after a date that is 24 months after a date of the initial organisation of the non-financial entity.
- The non-financial entity was not a financial institution in the past five years, and is in the process of liquidating its assets or is reorganising with the intent to continue or recommence operations in a business other than that of a financial institution.
- The non-financial entity primarily engages in financing and hedging transactions with, or for, related entities that are not financial institutions, and does not provide financing or hedging services to any entity that is not a related entity, provided that the group of any such related entities is primarily engaged in a business other than that of a financial institution.
