

Investment objective (summary of investment policy)

The PSG Stable Fund's objective is to achieve capital appreciation and generate a performance return of CPI+3% over a rolling three-year period with low volatility and low correlation to equity markets through all market cycles. The investment policy provides for investment in a mix of debt securities, money market instruments, bonds, inflation-linked securities, listed equities and property, preference shares and other high yielding securities and derivatives. The fund may have up to 40% in equities. The fund operates within the constraints of Regulation 28 of the Pension Funds Act.

Who should consider investing?

Fund specific risks: The fund sits in the lower middle of the risk/reward spectrum and investors should be comfortable with fluctuations in markets. The risk of short-term monetary loss is low to medium. The portfolio is exposed to equity as well as default and interest rate risks. Interest rate risk is the risk that the value of fixed income investments tends to decrease when interest rates and/or inflation rises. Default risk is where the issuers of fixed income instruments may not be able to meet interest or capital repayments. Property shares may be included in the portfolio and can carry the same risk as investing directly in real estate which is subject to economic and political conditions, interest rates and tax considerations. Investing in foreign securities may be subject to risks pertaining to overseas jurisdictions and markets, including (but not limited to) local liquidity, macroeconomic, political, tax, settlement risks and currency fluctuations. Changes in the relative values of different currencies may adversely affect the value of investments and any related income. Derivative instruments are included for efficient portfolio management purposes. The use of derivatives could increase overall risk by magnifying the effect of both gains and losses in a portfolio.

This fund is suitable for investors who:

- have a moderate risk appetite but require capital growth in real terms
- have a medium-term investment horizon of three years and longer
- are comfortable with fluctuations in markets

Risk/reward profile

Fund details

Inception date	03 September 2013
Fund manager	John Gilchrist and Dirk Jooste

Cumulative and annualised returns (%)

Return	Fund (%)	Benchmark (%)
Cumulative:		
Since inception	148.63	137.84
Annualised:		
Since inception	8.37	7.95
10 Years	8.22	7.92
7 Years	7.82	7.74
5 Years	10.20	7.89
3 Years	9.80	8.27
1 Year	9.71	5.93

Rolling returns (%)

The rolling return chart reflects the highest, lowest and average annualised return over the period indicated since the inception of the fund. For example, for the 1 year period the chart reflects the highest, lowest and average 12 month return the fund has experienced since its inception. Rolling returns highlight the magnitude of an investment's stronger and poorer periods of performance.

What is a Total Expense Ratio (TER)?

The Total Expense Ratio (TER) is the annualised percentage of the Fund's average assets under management that has been used to pay the Fund's actual expenses over a one and three year period. This percentage of the average Net Asset Value (NAV) of the portfolio was incurred as charges, levies and fees related to the management of the portfolio. A higher TER ratio does not necessarily imply a poor return, nor does a low TER ratio imply a good return. The current TER cannot be regarded as an indication of future TERs. Part of the Annual Management Fee may be payable to the financial intermediary. The sum of the TER and transaction costs is shown as the Total Investment Charge. Since Fund returns are quoted after the deduction of these expenses, the TER and transaction costs should not be deducted again from published returns.

Total investment charge

Total Investment Charge annualised for the period 01/01/2022 to 31/12/2024

Total expense ratio % (incl. VAT)	1.20
Annual management fee % (incl. VAT)	1.15
Other costs excluding transaction costs % (incl. VAT)	0.05
Transaction costs % (incl. VAT)	0.07
Total investment charge % (incl. VAT)	1.27

Total investment charge

Total Investment Charge annualised for the period 01/01/2024 to 31/12/2024

Total expense ratio % (incl. VAT)	1.22
Annual management fee % (incl. VAT)	1.15
Other costs excluding transaction costs % (incl. VAT)	0.07
Transaction costs % (incl. VAT)	0.06
Total investment charge % (incl. VAT)	1.28

Transaction costs

Transaction costs are shown separately and are a necessary cost in administering the Financial Product and impacts Financial Product returns.

Transaction costs should not be considered in isolation as return may be impacted by many other factors over time including market returns, the type of Financial Product, the investment decisions of the investment manager and the TER.

Fees

A schedule of fees and charges and maximum commissions is available on request from PSG Collective Investments (RF) Limited. Commission and incentives may be paid and, if so, are included in the overall costs. Different classes of participatory interest can apply to these portfolios and are subject to different fees, charges and possibly dividend withholding tax and will thus have differing performances. Adviser fees are negotiated between the client and adviser and is distinct from the other fees on this document.

Disclaimer

Collective Investment Schemes in Securities (CIS) are generally medium to long-term investments. The value of participatory interests (units) or the investment may go down as well as up and past performance is not a guide to future performance. Fluctuations or movements in the exchange rates may cause the value of underlying international investments to go up or down. CIS are traded at ruling prices and can engage in borrowing and scrip lending. The portfolio may borrow up to 10% of its market value to bridge insufficient liquidity. Where foreign securities are included in a portfolio, the portfolio is exposed to risks such as potential constraints on liquidity and the repatriation of funds, macroeconomic, political, foreign exchange, tax, settlement and potential limitations on the availability of market information. The portfolios may be capped at any time in order for them to be managed in accordance with their mandate. PSG Collective Investments (RF) Limited does not provide any guarantee either with respect to the capital or the return of the portfolio. Due to rounding, numbers presented throughout this document may not add up precisely to the totals provided.

Regulation 28

The fund is managed according to Regulation 28 of the Pension Funds Act. The South African retirement fund industry is governed by the Pension Funds Act No. 24 of 1956. Regulation 28 of the Pension Funds Act prescribes the maximum limits in asset classes that an approved retirement fund may invest in. Exposures in excess of the limits will be corrected immediately, except where due to a change in the fair value or characteristic of an asset, e.g. market value fluctuations, in which case they will be corrected within a reasonable time period.

Performance

All performance data for a lump sum, net of fees, include income and assumes reinvestment of income on a NAV to NAV basis. Annualised performances show longer term performance rescaled over a 12 month period. Individual investor performance may differ as a result of initial fees, the actual investment date, the date of reinvestment and dividend withholding tax. Performance is calculated for the portfolio and individual investor performance may differ as a result thereof. The portfolio is valued at 15h00 daily. Income distributions are net of any applicable taxes. Actual annual figures are available to the investor on request. Prices are published daily and available on the website www.psg.co.za/asset-management and in the daily newspapers. Figures quoted are from Morningstar Inc.

Pricing

Forward pricing is used. Unit trust prices are calculated on a net asset value (NAV) basis, which is the market value of all assets in the portfolio including income accruals less permissible deductions divided by the number of units in issue.

Redemptions

The ability of a portfolio to repurchase is dependent upon the liquidity of the securities and cash of the portfolio. To protect investors, a manager may suspend repurchases for a period, subject to regulatory approval, to await liquidity. A suspension ensures that the sale of a large number of units will not force PSG Collective Investments to sell the underlying investments at a price in the market which could have a negative impact on investors. PSG Collective Investments will keep all investors informed should a situation arise where such suspension is required.

Company details

PSG Collective Investments (RF) Limited is registered as a CIS Manager with the Financial Sector Conduct Authority, and a member of the Association of Savings and Investments South Africa (ASISA) through its holdings company PSG Financial Services Limited. The management of the portfolio is delegated to PSG Asset Management (Pty) Ltd, an authorised Financial Services Provider under the Financial Advisory and Intermediary Services Act 2002, FSP no 29524. PSG Asset Management (Pty) Ltd and PSG Collective Investments (RF) Limited are subsidiaries of PSG Financial Services Limited.
