## Commentary

### Financial results

PSG Konsult delivered a 5% increase in recurring headline earnings per share and a return on equity of 22.7% for the current year.

These results were achieved against a challenging operational backdrop. The performance of our key financial metrics under these conditions highlights the competitive advantage of our advice-led business model. Total assets under management increased by 13% to R354.1 billion, comprising assets managed by PSG Wealth of R305.5 billion (12% increase) and PSG Asset Management of R48.6 billion (16% increase), while PSG Insure's gross written premium amounted to R6.2 billion (9% increase). Over the period, the JSE/FTSE All Share Index only increased by 2%, compared to 15% in the previous financial year. This impacted performance fees, which constituted 6.5% of headline earnings in comparison to 10.6% for the previous financial year.

From a cost perspective, our Insure division was adversely impacted by the KZN floods during April 2022, but Western National's comprehensive reinsurance programme cushioned the effect on underwriting results. The firm remains confident about its long-term growth prospects, and we therefore continued to invest in both technology and people. Compared to the prior year, our technology and infrastructure spend increased by 13% (these costs continue to be fully expensed), while our fixed remuneration cost grew by 10%. We are proud of the progress made in growing our own talent, with 141 newly qualified graduates (96% of whom are ACI candidates) having joined during the financial year. These factors had a muted impact on our operating margins.

### PSG Wealth

#### PSG Wealth achieved recurring headline earnings growth of 11%

The division continued its commendable performance, notwithstanding the challenging market conditions. Core income increased by 9% during the current year, consisting of a continued increase in management and other recurring fees, while transactional brokerage decreased due to lower trading activity compared to the prior year.

Clients' assets managed by our Wealth advisers increased by 12% to R305.5 billion during the current year, which included R13.3 billion of positive net inflows. The division's formidable financial adviser network consisted of 590 wealth advisers as at 28 February 2023, a net increase of 6 advisers during the current year.

For the fourth consecutive year, the division was recognised as the Wealth Manager of the Year: Large Institutions at the Intellidex 2022 Wealth Manager of the Year Awards. The division also won the Young Professional, Lump-sum Investor and Retiree archetype categories at these awards.

PSG Wealth continues to advise clients to focus on their long-term goals and to maintain diversified portfolios, especially during challenging times. Our advisers provide clients with expert advice and maintain excellent relationships through integrity, trust and transparency. In addition, our sustained investment in digital capabilities to enhance the client experience enables us to operate seamlessly in a changing environment.

We remain confident about the fundamentals and prospects of this division and believe that our commitment to long-term relationships with clients will continue to differentiate us in the markets in which we compete.

### PSG Asset Management

#### PSG Asset Management's recurring headline earnings decreased by 10%

The division's results for the year were impacted by lower performance fees, however, management fees increased by 11%. The division's long-term investment track record continues to improve with most funds performing in the top quartile over a three-year period. PSG Asset Management's strong fund performance across the fund range was recognised at the 2022 Raging Bull Awards. The division received six awards, including the coveted South African Manager of the Year award.

Client assets under management increased by 16% to R48.6 billion during the current year, due to a combination of market movements and net client inflows. Assets administered by the division increased by 14% to R197.6 billion, supported by R7.7 billion of multi-managed net inflows.

PSG Asset Management continuously engages with clients on the merits of the diversification properties that its approach brings to a portfolio strategy.

### PSG Insure

#### PSG Insure's recurring headline earnings decreased by 4%

The division's results were adversely impacted by the KZN floods, which were classified as a catastrophe event. Despite the impact of this, Western achieved a net underwriting margin of 13.0%, compared to the 18.5% achieved in the prior year, due to quality underwriting practices and a comprehensive reinsurance programme.

Western received the Product Supplier of the Year: Non-Life Commercial award at the FIA Intermediary Experience Awards during September 2022. This division continues to focus on profitable growth with an emphasis on commercial lines' type of the business which requires adviser expertise. The number of insurance advisers in the group as at 28 February 2023 was 357.

Strategy

**PSG Wealth's** overall strategy offers an innovative and all-inclusive end-to-end client proposition and includes a complete range of discretionary and non-discretionary investment products with competitive fees. We advocate diversification and our solutions offer a balance between rand hedge and interest-rate-sensitive investments with a long-term focus. Management is proud of the experience and reputation of the advisers in the business, who play a key role in providing us with client feedback to continuously enhance our platform and product capabilities. Engaging with our clients remains central to our philosophy, which is currently a hybrid of digital and in-person events. Our Wealth business is well placed to meet client investment needs and consistently strives to improve both our adviser and client service offerings.

**PSG Asset Management's** strategy consists of investment excellence, operational efficiency, and effective sales and marketing initiatives. Generating the best long-term, risk adjusted returns for investors remains the division's primary focus. PSG Asset Management's differentiated investment approach add diversification to a blended client solution, helping clients to achieve better outcomes over time. The division continues to prioritise investment performance while managing operational processes and talent management. Increasing brand awareness, particularly in the retail investor market, and consistent and regular client communication through events and publications continue to be key focus areas for the division.

**PSG Insure** provides simple and cost-effective short-term insurance solutions to clients, protecting them from unforeseen events. Critical expertise across underwriting, administration and adviser teams underpins the focus on providing value-added products that meet and exceed clients' expectations. The division continues to invest in its claims and administration functions to build scale and unlock operational efficiencies, thereby enabling our high-calibre advisers to focus on client relationships.

Corporate activity

PSG Konsult's focus remains on organic growth. However, we will consider acquisitions that meet our investment criteria, which include acceptable pricing, a compelling strategic rationale, clearly definable synergies, and ease of integration.

Capital management

PSG Konsult's capital cover ratio remains strong and increased to 263% (2022: 240%) based on the latest insurance group return. This comfortably exceeds the minimum regulatory requirement of 100%. During July 2022, Global Credit Rating Company affirmed the group's long-term and short-term credit ratings at A+(ZA) and A1(ZA) respectively, with a Stable Outlook. The increase in the group's capital cover ratio and the credit rating affirmation is testament to the group's strong financial position and excellent liquidity.

PSG Konsult also continues to generate strong cash flows, which gives us various options to optimise our capital structure and risk-adjusted returns to the benefit of shareholders:

- The group repurchased and cancelled 35.7 million shares at a cost of R415.9 million during the period, as part of shareholder capital optimisation.
- The board decided to increase the upper limit of the group's dividend policy pay-out ratio to 60% (50% previously) of recurring headline earnings, excluding intangible asset amortisation.
- Our shareholder investable asset's exposure to equity marginally increased to 6% (previously below 5%). We continue to monitor investment markets and will gradually increase our value at risk exposure to align with our long-term target.

Our primary objective remains to grow organically, and to fund that growth prudently.

Regulatory landscape and risk management

PSG Konsult has 21 regulatory licences (17 in South Africa and 4 in foreign jurisdictions) and continues to maintain good working relationships with the regulators in the markets in which we operate.

Marketing initiatives

The group successfully interacted with clients and prospects throughout the year, hosting more than 170 in-person events and in excess of 60 webinars allowing advisers, employees and industry representatives to gain political, economic and practical insights from recognised experts as well as the leadership team.

Our successful Think Big webinar series, now in its third year, continues to attract viewers and subscribers to our YouTube and Spotify channels. The series has proven popular over time with prospects, with a >60% non-client split, thereby making it a strategic brand awareness and lead-generation tool for the group. In the past fiscal alone, the series received almost 30 000 unique registrations. The public relations coverage adds to the success of the series as the media recognises it as a credible content source for thought leadership.

The group was awarded three trophies and four certificates at the annual Raging Bull Awards, seeing the industry recognising investment excellence across the Wealth and Asset management divisions.

The team continues to run integrated product campaigns that help to generate flows and new client leads into the business. An example of this is the retirement annuity/tax-free investment product campaign at tax year-end which saw a record-high 2.2 million website events. In the digital environment, both paid and organic search campaigns see an average of more than 800 000 website visits per

month. Social media accounts continue to attract new followers and we are seeing increased engagement levels. The team also remains focused on producing tailored marketing plans per adviser office along with support on the execution.

Information technology

We are committed to continually enhancing our client and adviser experience. This includes investing in technology to automate adviser and client systems and processes. Improving our processes results in a smoother client onboarding and user experience and a subsequent uptick in client retention due to increased satisfaction.

Through technology automation the group can grow business volumes while keeping our fixed cost base low. We believe companies that embrace the digital environment will grow and gain market share.

All related IT system costs continue to be fully expensed.

Looking forward

We have always been confident that resourceful South Africans will build a better future for themselves and their children. Nevertheless, current economic activity remains depressed, and expectations have plummeted to new lows.

Despite this, we believe that conditions are ripe for change. Ordinary hardworking and honest South Africans have clearly had enough and significant job losses have further created an alignment of interests for labour and the private sector to work together. At the same time, the private sector still has a significant pool of skilled resources and capital at its disposal. We are therefore mindful that a credible package of measures aimed at remediating South Africa's networked industries, while meaningfully involving the private sector and labour, can quickly serve to uplift the public mood as action translates into much needed forward momentum.

Irrespective of the short-term challenges, we remain confident in our long-term strategy and will continue to invest in our businesses, thereby securing prospects for growth. We will, however, continue to monitor local and global events and the associated impact on the group's clients and other stakeholders.

Events after reporting date

No events material to the understanding of these results occurred between 28 February 2023 and the date of approval of the condensed consolidated financial statements.

Final dividend declaration

Considering both the strong cash position and the change in dividend policy pay-out ratio, the board declared a final gross dividend of 25.0 cents per share from income reserves for the year ended 28 February 2023 (2022: 22.0 cents per share). This brings the total dividend distribution to shareholders to 36.0 cents per share (2022: 32.0 cents per share) for the full year, reflecting the group's sound financial position and confidence in its prospects.

The dividend is subject to a South African dividend withholding tax (DWT) rate of 20%, unless the shareholder is exempt from paying dividend tax or is entitled to a reduced rate in terms of the applicable double-tax agreement. Including DWT at 20% results in a net dividend of 20.0 ZAR cents (2022: 17.6 ZAR cents) per share. The number of issued ordinary shares is 1 294 818 074 at the date of this declaration.

PSG Konsult's income tax reference number is 9550/644/07/5.

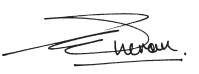

The salient dates of the dividend declaration are:	
Declaration date	Thursday, 13 April 2023
Last day to trade cum dividend	Tuesday, 2 May 2023
Trading ex-dividend commences	Wednesday, 3 May 2023
Record date	Friday, 5 May 2023
Date of payment	Monday, 8 May 2023

As the dividend has been declared and denominated in ZAR, it will be paid (in ZAR) into the bank accounts of shareholders appearing on the Mauritian register.

Share certificates may not be dematerialised or rematerialised between Wednesday, 3 May 2023 and Friday, 5 May 2023, both days inclusive.

The board extends its appreciation to its stakeholders, including its shareholders, advisers, clients, business partners, management and employees for their continued support and commitment during the past year.

# Independent auditor's review report on condensed consolidated financial statements

## To the shareholders of PSG Konsult Limited

We have reviewed the condensed consolidated financial statements of PSG Konsult, contained in the accompanying preliminary report set out on pages 9 to 32, which comprise the condensed consolidated statement of financial position as at 28 February 2023 and the condensed consolidated income statement and condensed consolidated statements of other comprehensive income, changes in equity and cash flows for the year then ended, and selected explanatory notes.

## Directors' Responsibility for the Condensed Consolidated Financial Statements

The directors are responsible for the preparation and presentation of these condensed consolidated financial statements in accordance with the requirements of the JSE Limited Listings Requirements for preliminary reports, as set out in note 2 to the financial statements, and the requirements of the Companies Act of South Africa, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

The Listings Requirements require condensed consolidated financial statements contained in a preliminary report to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by Financial Reporting Standards Council and to also, as a minimum, contain the information required by International Accounting Standard (IAS) 34, *Interim Financial Reporting*.

## Auditor's Responsibility

Our responsibility is to express a conclusion on these financial statements. We conducted our review in accordance with International Standard on Review Engagements (ISRE) 2410, which applies to a review of historical information performed by the independent auditor of the entity. ISRE 2410 requires us to conclude whether anything has come to our attention that causes us to believe that the financial statements are not prepared in all material respects in accordance with the applicable financial reporting framework. This standard also requires us to comply with relevant ethical requirements.

A review of financial statements in accordance with ISRE 2410 is a limited assurance engagement. We perform procedures, primarily consisting of making inquiries of management and others within the entity, as appropriate, and applying analytical procedures, and evaluate the evidence obtained.

The procedures performed in a review are substantially less than those performed in an audit conducted in accordance with International Standards on Auditing. Accordingly, we do not express an audit opinion on these financial statements.

## Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the condensed consolidated financial statements of PSG Konsult Limited for the year ended 28 February 2023 are not prepared, in all material respects, in accordance with the requirements of the JSE Limited Listings Requirements for preliminary reports, as set out in note 2 to the financial statements, and the requirements of the Companies Act of South Africa.

### Notes to the statement of cash flows:

The movement in cash utilised in operations can vary significantly as a result of daily fluctuations in cash linked to investment contracts, cash held by the stockbroking business and cash utilised for the loan facility obtained by the group on the loan facilities provided to clients on their share portfolios at PSG Securities Limited. PSG Life Limited, the group's linked insurance company, issues linked policies to policyholders (where the value of policy benefits is directly linked to the fair value of the supporting assets). When these policies mature, the company raises a debtor for the money receivable from the third-party investment provider, and raises a creditor for the amount owing to the client. Timing difference occurs at month-end where the money was received from the third-party investment provider, but only paid out by the company after month-end, resulting in significant fluctuations in the working capital of the company. Similar working capital fluctuations occur at PSG Securities Limited, the group's stockbroking business, mainly due to the timing of the close of the JSE in terms of client settlements. Refer to note 6.8 for the impact of the client-related balances on the cash flows from operating activities.

# Notes to the condensed consolidated financial statements

for the year ended 28 February 2023

## 1. Reporting entity

PSG Konsult Limited is a public company domiciled in the Republic of South Africa. The preliminary condensed consolidated financial statements of the company as at and for the year ended 28 February 2023 comprise the company and its subsidiaries (together referred to as the 'group') and the group's interest in joint ventures.

## 2. Basis of preparation

The condensed consolidated financial statements are prepared in accordance with the requirements of the JSE Limited Listings Requirements for preliminary reports and the requirements of the Companies Act of South Africa. The Listings Requirements require preliminary reports to be prepared in accordance with the framework concepts and the measurement and recognition requirements of International Financial Reporting Standards (IFRS), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Pronouncements as issued by the Financial Reporting Standards Council and to also, as a minimum, contain the information required by IAS 34 – Interim Financial Reporting.

## 3. Preparation

The condensed consolidated financial statements are the responsibility of the board of directors of the company. These condensed consolidated financial statements were prepared under the supervision of the chief financial officer, Mike Smith, CA(SA). These condensed consolidated financial statements for the year ended 28 February 2023 have been reviewed by Deloitte & Touche, who expressed an unmodified review conclusion. A copy of the auditor's review report is available for inspection at the company's registered office together with the financial statements identified in the auditor's report. Any reference to future financial performance included in these condensed consolidated financial statements has not been reviewed by or reported on by PSG Konsult's auditor.

## 4. Accounting policies

The accounting policies applied in the preparation of these condensed consolidated financial statements are in terms of IFRS and are consistent with those accounting policies applied in the preparation of the previous consolidated annual financial statements as at and for the year ended 28 February 2022.

The group has assessed the impact that the initial application of IFRS 17 will have on its consolidated financial statements as at 1 March 2022 (the transitional impact). It is estimated that the transitional impact will be an increase in retained earnings of less than 1%, mainly attributable to a decrease in the net liability position due to certain acquisition costs related to the distribution and underwriting of insurance contracts being expensed in future periods when the related revenue is recognised.

## 5. Use of estimates and judgements

In preparing these condensed consolidated financial statements, the significant judgements made by management in applying the group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated annual financial statements for the year ended 28 February 2022.

## 6. Segment information

The composition of the reportable segments represents the internal reporting structure and the monthly reporting to the chief operating decisionmaker (CODM). The CODM for the purpose of IFRS 8 – Operating Segments has been identified as the chief executive officer, supported by the group management committee (Manco). The group's internal reporting structure is reviewed in order to assess performance and allocate resources. The group is organised into three reportable segments, namely:

- PSG Wealth – *deriving income mainly from total managed assets and total platform assets*
- PSG Asset Management – *deriving income mainly from total assets under management and administration*
- PSG Insure – *deriving income mainly from written premiums and underwriting*

Corporate support costs refer to a variety of services and functions that are performed centrally for the individual business units within each business segment, as well as housing the group's executive office. Besides the traditional accounting and secretarial services provided to group divisions and subsidiaries, the corporate office also provides legal, risk, IT, marketing, HR, payroll, internal audit and corporate finance services. The strategic elements of IT, in terms of both services and infrastructure, are also centralised in the corporate office. The corporate costs are allocated to the three reportable segments.

### 6.1 Description of business segments

PSG Wealth, which consists of five business units – Distribution, Securities, LISP and Life Platform, Multi-Management and Employee Benefits – is designed to meet the needs of individuals, families and businesses. Through its highly skilled Wealth managers, PSG Wealth offers a wide range of personalised services (including portfolio management, stockbroking, local and offshore investments, estate planning, financial planning, local and offshore fiduciary services, multi-managed solutions and retirement products). The Wealth offices are fully equipped to deliver a high-quality personal service to customers.

PSG Asset Management is an established investment management company with a proven investment track record. It offers investors a simple, but comprehensive range of local and global investment products. The division's products include both local and international unit trust funds.

PSG Insure, through its registered insurance brokers and PSG's short-term insurance company, Western National Insurance Company Limited, offers a full range of tailor-made short-term insurance products and services from personal (home, car and household insurance) to commercial (business and agri-insurance) requirements. To harness the insurance solutions available to customers effectively, the division's expert insurance specialists, through a strict due diligence process, will simplify the selection process for the most appropriate solution for its clients. In addition to the intermediary services which PSG Insure offers; PSG Short-Term Administration supports clients through the claim process, administrative issues and general policy maintenance, including an annual reappraisal of their portfolio.

The CODM considers the performance of reportable segments based on total core income as a measure of growth and headline earnings as a measure of profitability. In order to evaluate the core results of the group, the CODM segregates the income statement by eliminating the impact of the linked investment policies issued and the consolidation of the collective investment schemes from the core operations in the group.

A subsidiary of the group, PSG Life Limited, is a linked insurance company and issues linked policies to policyholders (where the value of policy benefits is directly linked to the fair value of the supporting assets), and as such does not expose the group to the market risk of fair value adjustments on the financial asset as this risk is assumed by the policyholder.

The group consolidates collective investment schemes, in terms of IFRS 10 – Consolidated Financial Statements, over which the group has control. The consolidation of these funds does not impact total earnings, comprehensive income, shareholders' funds or the net asset value of the group; however, it requires the group to recognise the income statement impact as part of that of the group.

<sup>1</sup> Headline earnings, calculated in terms of the requirements stipulated in Circular 1/2021 as issued by SAICA, comprise recurring and non-recurring headline earnings. Recurring headline earnings are calculated by excluding non-recurring headline earnings to increase comparability of the performance of the group from one year to another. Non-recurring headline earnings include one-off gains and losses and the resulting tax charge on these items.

<sup>2</sup> The intangible asset amortisation cost includes the amortisation on customer relationships. It excludes the amortisation on computer software and other intangible assets.

Intersegment income	(737 453)	(392 626)	(50 743)	(1 180 822)

Intersegment income and expenses consist of fees charged at market-related rates. The group accounts for intersegment income and expenses by eliminating these transactions to only reflect transactions with third parties. Intersegment income is eliminated by deducting it from total segment income to reflect income generated by segment from external customers.

The group mainly operates in the Republic of South Africa, with 92.8% (2022: 92.5%) of the total income from external customers (total IFRS reported income) generated in the Republic of South Africa.

Other information provided to the CODM is measured in a manner consistent with that of the financial statements.

#### 6.8 Statement of cash flows (client vs own)

In order to assist the CODM to evaluate the consolidated statement of cash flows of the group, the statement of cash flows is segregated between cash flows relating to own balances and client-related balances.

The movement in cash (utilised in)/generated by operations can vary significantly as a result of fluctuations in the receivables and payables relating to our stockbroking business, which have been included within client-related balances.

Included under receivables are broker and clearing accounts at our stockbroking business of which R7 707.5 million (2022: R1 953.2 million) represents amounts owing by the JSE for trades conducted during the last few days before the end of the year. The balances fluctuate on a daily basis depending on the activity in the market.

The control account for the settlement of these transactions is included under the trade and other payables, with the settlement to the clients taking place within three days after the transaction date.

## 9. Financial risk management

The group's activities expose it to a variety of financial risks: market risk (including price risk, foreign currency risk, cash flow and fair value interest rate risks), credit risk and liquidity risk. Insurance activities expose the group to insurance risk (including pricing risk, reserving risk, underwriting risk and reinsurance risk). The group is also exposed to operational risk and legal risk.

The capital risk management philosophy is to maximise the return on shareholders' capital within an appropriate risk framework.

The condensed consolidated financial statements do not include all risk management information and disclosure required in the annual financial statements and should be read in conjunction with the group's annual financial statements as at 28 February 2023.

There have been no changes in the group's financial risk management objectives and policies since the previous financial year-end.

### Market risk (price risk, foreign currency risk and interest rate risk)

Market risk is the risk of adverse financial impact due to changes in fair values or future cash flows of financial instruments from fluctuations in interest rates, equity prices and foreign currency exchange rates.

A portion of the policyholders' and shareholders' investments are valued at fair value and are therefore susceptible to market fluctuations.

With regard to the subsidiary, PSG Life Limited, this company only invests assets into portfolios that are exposed to market price risk that matches linked policies to policyholders (where the value of policy benefits is directly linked to the fair value of the supporting assets), and as such does not expose the business to the market risk of fair value adjustments on the financial asset as this risk is assumed by the policyholder. Fees charged on this business are determined as a percentage of the fair value of the underlying assets held in the linked funds, which are subject to price and interest rate risk. As a result, the management fees fluctuate, but cannot be less than nil.

Included in the equity securities of R3 488.0 million (2022: R3 080.4 million) are quoted equity securities of R3 487.8 million (2022: R3 073.1 million), of which R3 449.3 million (2022: R3 043.4 million) relates to investments in linked investment contracts. The price risk of these instruments is carried by the policyholders of the linked investment contracts.

Unit-linked investments of R36 683.5 million (2022: R32 573.6 million) are linked to investment contracts and do not directly expose the group to price or interest rate risk.

Debt securities linked to policyholder investments amounted to Rnil (2022: R319.4 million) and do not expose the group to interest rate risk. Cash and cash equivalents linked to policyholder investments amounted to R34.6 million (2022: R46.9 million) and do not expose the group to interest rate risk.

## 9. Financial risk management (continued)

### Fair value estimation

The information below analyses financial instruments, carried at fair value, by level of hierarchy as required by IFRS 7 – Financial Instruments and IFRS 13 – Fair Value Measurement. The different levels have been defined as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities;
- Level 2 – input other than quoted prices included within level 1 that is observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices); and
- Level 3 – input for the asset or liability that is not based on observable market data (that is, unobservable input).

There have been no significant transfers between level 1, 2 or 3 during the financial year under review.

The table below analyses financial assets and liabilities, which are carried at fair value, by valuation method. There were no significant changes in the valuation techniques and assumptions applied since 28 February 2022.

Valuation techniques and main assumptions used in determining the fair value of financial assets and liabilities classified within level 2 can be summarised as follows:

Instruments	Valuation techniques	Main assumptions
Derivative financial instruments	Exit price on recognised over-the-counter (OTC) platforms	Not applicable
Debt securities	Valuation model that uses the market input (yield of benchmark bonds)	Bond interest rate curves Issuer credit ratings Liquidity spreads
Unit-linked investments	Quoted put (exit) price provided by the fund manager	Not applicable – daily prices are publicly available
Investment in investment contracts	Prices are obtained from the insurer of the particular investment contract	Not applicable – prices provided by registered long-term insurers
Investment contract liabilities – unit linked	Current unit price of underlying unitised financial asset that is linked to the liability, multiplied by the number of units held	Not applicable
Third-party liabilities arising on the consolidation of mutual funds	Quoted put (exit) price provided by the fund manager	Not applicable – prices are publicly available

<sup>1</sup> The gains and losses on level 3 financial instruments are recognised in profit or loss under 'net fair value gains and losses on financial instruments' and 'net income attributable to investment contract holders and third-party liabilities'.

<sup>2</sup> Gains recognised in profit or loss include unrealised gains of R25.7 million and realised losses of R3.0 million for the 2023 financial year (2022: unrealised gains of R9.2 million and realised gains of R0.2 million).

<sup>3</sup> Losses recognised in profit or loss include unrealised losses of R21.0 million and realised gains of R2.2 million for the 2023 financial year (2022: unrealised losses of R14.8 million and realised gains of R0.2 million).

Trade and other payables classified within level 3 have significant unobservable inputs, as the valuation technique used to determine the fair values takes into account the probability (at each reporting period) that the contracted party will achieve the profit guarantee as stipulated in the business agreement. These relate to the purchase of intangibles and as such any change in measurement would result in a similar adjustment to the intangible assets with the exception of those acquired in terms of business combinations. Therefore the group's overall profit or loss is not materially sensitive to changes in the inputs.

### 10. Related-party transactions

Related-party transactions similar to those disclosed in the group's annual financial statements for the year ended 28 February 2022 took place during the financial year.

### 11. Events after the reporting date

No event material to the understanding of these results has occurred between the end of the reporting period and the date of approval of the condensed consolidated financial statements.
