## PSG Wealth Scriptfin Loan Facility

- The maximum loan facility the Borrower may qualify for will depend on how well the share portfolio of the Borrower is diversified at the time application is made for the loan facility:

Share Portfolio Diversification	Loan Value
Portfolio consisting of FTSE/JSE Top 40 shares	Up to 30% credit available
Portfolio consisting of Top 41-100 shares (FTSE/JSE Midcap Index)	Up to 25% credit available
Portfolio consisting of non-Top 100 shares	No credit

- The loan value is calculated based on the value of the relevant shares at that point in time, i.e. the initiation value at the time when the Borrower applies for the loan facility. The loan value is a variable amount as the share portfolio used as collateral by the Borrower can increase or decrease in value at any time due to market movement, client trade activity and withdrawals.
- The loan to value ratios for the Top 40 and Top 100 are set out in the table above. However, should you have a specific Top 100 (FTSE/JSE Top 40 & Midcap Indices) share that makes up 25% or more of your holdings, your loan amount will be reduced further in order to reduce concentration risk.
